After attending the last meeting and following up on Mr. Kunasek's suggestion of a flat fee reimbursement for airplane usage by private pilots, I have received approval from the FAA for this purpose. The Federal Government allowance is .91 cents per mile. If the Commission elects to stay with .995 cents per mile, I feel this might cause a problem with the FAA concerning private pilots. It is my hope that the Commission will recognize the above and change the reimbursement rate to .91 cents per mile as not to cause any further conflicts with Federal Regulations.
